

1.1.2 The institution adheres to the academic calendar including for the conduct of Continuous Internal Evaluation (CIE)

In our college under the IQAC department we prepared Academic Calendar Committee. It is important to state at the beginning of this report that the committee believes the development of the annual campus academic calendar to be the purview of the faculty as part of a healthy commitment.

The Savitribai Phule Pune University, Pune which are our college affiliated didn't declared any academic calendar. For this specific year 2020-21, so our college made a calendar of each department and committees as per the guidelines given by the IQAC department. In this academic calendar we included various online activities due to ongoing pandemic.

That said the particular model for the calendar is a critical element of the campus identity and has important implications for all areas on campus: academic, administrative, and cultural.

Teachers may also use calendar in college for abreast of any events that may be relevant to themselves, such as lectures. This can be applied to their classes, as some of these events could be relevant to their particular subject.

If not, these events may be relevant to the teachers themselves, as it may also be golden opportunity to gain new insights for their classes. Of course, there is no reason that there cannot be overlap, as these events may be excellent foundations for topics to be touched on in class.
