Department of Chemistry

Water Analysis

Date :17/06/2022

On dated 16 June 2022 Popatrao Kisanrao Thorat college Khutbav ,Department of Chemistry organiz Field visit on water Analysis In Daund Taluka .in this visit students study physical parameters of water samples Mula & Mutha River, Pune cityand their TDS, conductivity. It is crucial to be aware of the drinking water resources' quality in rural areas. Hydro-geochemical studies are becoming more important for the use of groundwater because there has been a rise in the demand for water recently due to population growth and intensive agricultural operations. One of the major environmental health risks is the quality of drinking water. The use of clean drinking water is the cornerstone of controlling and preventing diseases that are transmitted by water. In this study, it has been determined whether the water quality of Mula-Mutha river is suitable for drinking purposes or not. Eight samples were collected from different Locations; each sample was examined for Physiochemical parameters. The Central Water Commission, World Health Organization, and CPCB (Central Pollution Control Board of India) protocols were followed for doing the water's Physiochemical Analysis. Water quality standards and a number of parameters, including pH, Dissolved Oxygen (DO), Chemical Oxygen Demand (COD), Temperature, Specific Conductivity, and Total Dissolved Solid, were examined. The pH ranged from being very basic to barely neutral in all of the samples. Among samples, there had been differences in TDS, temperature, pH, and conductivity. The investigation of the river water revealed that it cannot be used as potable water.

The Mula & Mutha River is the origin from Mulashi and Khadakwasala Dam. It also passes through the city of Pune before meeting the river Mula in the Shivajinagar neighborhood, where it is known as the Sangam Bridge. It flows as the Mula-Mutha River in the metropolitan region after combining with the Mula River in Pune city. The water from both rivers was only used for residential, agricultural, and irrigation purposes throughout their original journeys. For the villagers living along the river's edge back then, the river was their only source of drinking water. However, due to the rapid industrialization and civilization, the river's importance was transformed, and instead of being used for its original purposes of providing water, the river was made into a place for the disposal of sewage wastes and unnecessary materials. The river now resembles a canal conveying waste water to the purification unit as a result of the mixing of undesired items into the water body; ordinarily, this type of situation was observed in the summer. Large amounts of fertilizers and pesticides are released into the river water as a result of agricultural run-off. In general, fresh water is a good resource that is necessary for human existence, agriculture, and industry. Fresh water is currently one of the key factors in healthy development. According to a literature review, the discharge of sewage and other types of effluents into the river body causes close to 70% of the surface water in our country to become contaminated. Water becomes

contaminated as a result of human activity. One can gain a sense of the quality of the water by looking at its physical, chemical, and biological characteristics. Therefore, it is crucial to continuously evaluate the drinking water's purity.

Materials & Methods: Collection of Sample Eight samples were taken from various Mula-Mutha River sample stations. American Public Health Association guidelines for additional physiochemical parameter evaluation were used to collect the water samples in triplicate in plastic containers (1995). The entire list of the criteria used for the analysis is provided in (Table 1). Water analysis for eight samples taken from different locations along the MulaMutha River for the month of May 2022 was done, and the results are shown in .

Table 1. Chemical evaluation of water samples: parameters and methods

Sr. No.	Parameter of water analysis	Methods
1.	pH	pH Metry
2.	DO	Azide modification
3.	COD	Dichromate reflux
4.	Temperature	Glass Thermometer
5.	Conductivity	Conductivity meter
6.	TDS	Gravimetric

Table 2. Physicochemical Characteristics of Eight Samples in Mula-Mutha River

Sr. No.	Parameter of water analysis	Units	S1	S2	S3	S4	S5	S6	S7	S8
1.	pH	-	8.55	8.42	8.10	7.84	7.40	5.22	5.50	6.10
2.	Temperature	C	28	29	28	28	28	28	28	28
3.	DO	Mg/l	2.4	2.3	1.8	3.1	3.4	2.2	0.8	1.6
4.	COD	Mg/l	44	42	46	48	62	52	58	73
5.	Conductivity	umhos/cm	282	270	172	560	450	784	670	550
6.	TDS	Mg/l	280	320	356	418	350	540	620	460

Result and Discussion:

It is discovered that the pH of the river water is in the range of 5.22 to 8.55 by examining the river water quality for these ten criteria. With the exception of S6, S7, and S8, all other pH values were somewhat basic, while S5 was neutral. It demonstrates that the river water is below Indian requirements at sampling stations S6, S7, and S8. i.e. acidic in nature. The detected pH at sampling station number 1 is 8.55, and this higher value shows that domestic load has been mixed with the river's water body. Temperature of Water is a crucial factor that directly affects various chemical processes in aquatic ecosystems. The temperature of water was found to be in the range between 28°C to 29°C. The observed range of DO in the presented water sample was between 0.8 mg/L and 3.4 mg/L. According to Indian standards, the acceptable DO range is 6 to 7.00 mg/L. However, in our situation, the DO level falls short of

Indian guidelines. It might be because of detergents, human waste discharged into the environment, and organic waste produced by the food, paper, and pulp industries. The research area's chemical oxygen requirement was found to be between 42 and 73 mg/l, which is higher than the 250 mg/L permissible limit prescribed by Indian guidelines. Here observed values of COD show that the pollution level is at increased. There would be 172 to 784 $\mu\text{hos/cm}$ of conductivity. S6 exhibited the highest conductivity. Inorganic dissolved particles including chloride, nitrate, sulphate, and phosphate, in addition to sodium, magnesium, calcium, iron, and aluminium, have an impact on conductivity in water. The range for total dissolved solids is 280 to 620 mg/l it is due the Chemicals from sewage treatment, pesticides, and road salts, and/or fertilizers, can also be dissolved in water, and contaminate both drinking supplies and bodies of water. High total dissolved solids frequently have a negative impact on mobility

Conclusion: After analyzing all the parameters of Mula-Mutha river water, it is observed that some samples of riverwater did not exceed the maximum permissible limit given by WHO. Some of the parameters are showing the higher values at some stations because of the river enters in the pune city and quality of the river water has changed as a result of the mixing of sewage water with industrial effluents and agricultural runoff. Water is therefore unfit for any residential or other applications. The first mixing of sewage water should be avoided, and river water should be regularly monitored, in order to reduce contamination levels.

Mahatma Gandhi Birth anniversary

Date: 02 October 2021

According to the circular of Savitribai Phule Pune University, a cleanliness drive was carried out at Khutbav gram Panchayat premises, through Popatrao Kisanrao Thorat College Khutbav on 2nd October 2021 under 'Azadika Amrut mohastav - Clean India Program'. Cleanliness drive program was carried out for celebrating occasion of 151th birth anniversary of Mahatma Gandhi. The program began with the worship of image of Mahatma Gandhi and Lal Bahadur Shastri. Principal of the college Dr. Avinash Sangolekar sir and Bhausaheb Dhamdhere sir, Suryakant Khaire Sir, Arun Thorat and Office bearer of the organization worshipped the image.

Sanitation campaign was started from the gram panchayat premises students of NSS celebrated Gandhi birth anniversary by constructing gram Panchayat premises and road through swachhata. The main objective of swachhata abhiyan convenience the villagers of the importance of cleanliness and to create awareness about the cleanliness. College teachers participated in this campaign.

Objective:

1. Understand the community in which they work
2. Identify the needs and problems of the community and involve them in problem solving process;
3. Utilize their knowledge in finding practical solution to individual and community problems;

Outcomes:

1. They are able to understand community in which they work.
2. They have been able to identify problem of the community and find problem on it.
3. They are able to find practical solution on the community problems.

Some Selective Photos:

Group photo before departure

Group photo nearby Ujani dam

Indian Cormorant, Bar Headed Goose, Brahmin Duck, Osprey, Pond Herons, Purple Heron, Woolly-necked Stork and also various plant species observed such as Spirogyra, Hydrophytes, Chara, Chlorella, Water Lettuce, Nostoc, Eichhornia Crassipes, Ulothrix, etc. The boats were returned to the bank at 11:45 AM . Students then served with delicious seafood and vegetarian food as per their food habits. At 02:30 PM , all the buses headed towards another side of the Ujani Dam, Palasnath temple at Palasdev village located under water. Then buses headed towards Mallinath temple nearby Bhigwan at 3:00 PM. Students enjoyed being with some of the attractive spots there. Finally, all 3 buses left Bhigwan for Khutbav at 4:30 PM and reached Khutbav at 5:45 PM.

Total 82 students and 15 staff members participated in this educational tour. Students enjoyed this educational tour wholeheartedly. They seemed very interesting for visiting these places.

Educational Tour Report

Academic Year – 2021-22

Educational Tour Committee

Day & Date: Wednesday 9th March 2022

Bhairavnath Shikshan Mandal's, Popatrao Kisanrao Thorat College, Khutbav's Department of Zoology, department of Botany, department of History, department of Geography and Educational Tour Committee had organized one day educational tour at namely Kumbhargaoon village nearby Ujani Dam, Palasdev, Bhigwan for various educational purposes. Prior notice was prepared by the educational tour committee members and circulated among the students through their WhatsApp groups. Then the collection of fees was carried out by the respective committee member.

Three buses took off from the college premises at 07:00 AM and reached at Birders Nest hotel at 08:45 AM. Breakfast was taken at 09:30 AM and then students left the hotel for boating after giving safety instructions to be followed while boating. Then all the students embarked into various boats of different sizes along with one or more teachers. It was thrilling experience for students of boating for more than 2 hours into the Ujani Dam. There were number of birds' species observed by students which are commonly found there such as Flemingo, Black Headed Ibis, Grey Heron, Little Egret, Indian Spot-billed Duck, Glossy Ibis, Palas's Gull, Wood Sand Piper, Rosy Starling, Little Stint, Open Beak Stork,

Educational Tour Committee

Tour Outcomes

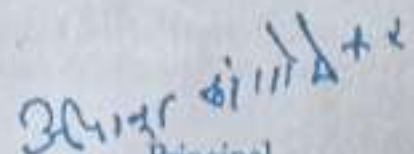

Academic Year – 2021-22

Outcomes:-

- 1) The purpose of this tour was to provide students an experience outside the classrooms or labs.
- 2) It also provides an opportunity of non-experimental research and helps bring all the students to a common platform irrespective of their social, economic and cultural backgrounds.
- 3) Students' get the first-hand experience of the concepts which help them in long term retention of the knowledge.
- 4) It also helps in long term in application of ideas, theories and knowledge which ensure competence in experiential learning.
- 5) Educational tour helps in developing overall personality of students.

Educational Tour Committee

Tour Objectives

Academic Year - 2021-22

Objectives:-

- 1) Educational tour provides students' with an opportunity to collaborate with teachers and integrate new perspective with informal environments to enhance learning experience.
- 2) Effective Learning - learning is the process of acquiring new knowledge behaviours, skills & values.
- 3) Personal Development - Educational tour offers perfect information setup for discussion, dialogues and experiences which helps them in developing various life skills, such as team building, time management, etc.
- 4) Deepen Social and Historical Knowledge - Educational tour exposes students' to different lifestyles, places, people and era.
- 5) Respect For Culture - When students travel to different places they are exposed to ideas, customs and social behavior of other societies.
- 6) Enhance Perspectives - To have a better understanding of issues related to socio-economic factors, poverty, substances, environmental issues, interpersonal relationships, communal violence, social injustice, mental health problems, etc.
- 7) Effective communication - To develop communication skill effectively, students need to participate in society's aspects and contribute for the betterment of individuals.

The speaker also told proper schedule is necessary for preparation of exam. He told the best way to start the preparation of the exam is to go through the previous question papers. He also said there is lots of distraction to everyone while studying and the only way to keep away the distraction is the dedication to success. He also said everyone should inspire their friends and support each other in preparation by group study, solving puzzles etc.

At the end the speaker also told students the importance of notes preparation and every student preparing for such competitive exam should learn from failure and success stories of experienced students. After that students asked the questions to the speaker.

The session ended with the hearty thanks by Shri. Aniket Thorat by Asst. Prof. Gorad.A.S.Sir in appreciation for taking the time out for educating the students on how to prepare for competitive examinations. He appreciated Faculty members, students, volunteers and participants for successful conduction of event.

Report of **"MPSC Exams Guidance"**

Report:

Topic: How to crack MPSC Exam.

Speaker: Shri. Aniket Thorat, Deputy Tehsildar (Pune).

Faculty Co-ordinator : Asst. Prof. Gorad A.S.

Date and Time: 12-05-2022 at 10.00AM

VENUE: Seminar Hall.

A guest lecture on "How to crack MPSC Exam" was held on 12 May 2022. The guest lecture was organized by competitive exam guidance cell and Internal Quality Assurance Cell provides the students with brief introduction about the syllabus and exam pattern of various competitive exams.

The guest lecture began with the welcome address of Asst.Prof. Dr.Malhari Masalkhamb. He had introduced and welcomed Shri. Aniket Thorat, Deputy Tehsildar (Pune).

Resource person to deliver the lecture.

The session was then continued by Shri. Aniket Thorat who began with an introduction of MPSC Service exam. He told the students the detailed exam pattern and strategy to crack MPSC Exam. The detailed syllabus of the exam and how to begin the preparation for the examination was explained by the speaker. The speaker then discussed the three phases of the exam viz. Prelims, Mains and Interview with the students in brief.

The speaker told the students that they should have particular Aim in their life. He then said that if the aim of the any particular student is to crack any competitive exam then he/she should have the patience because such exams may sometimes takes a period of a year or more for completion of all three phases of the exam or in either case sometimes the result may get delayed. He told students that they should follow their hobbies and must spend one hour daily for physical exercises. She also told students while preparing for such exams, it may take a year or more time so to maintain their physical and mental health, daily exercises are necessary.

Shivswarajya Day Celebration Report

Date 06 March 2022

As per Savitribai Phule Pune University Circular, Shivswarajya Day was celebrated in the Popatrao Kisanrao Thorat college on 6 June 2022. This initiative was carried out through the National Service Scheme. On the occasion of the coronation ceremony of Chhatrapati Shivaji Maharaj, all the faculty, teaching staff and students of the college worshiped the image. The National Anthem was sung by all participants on the occasion of shivswarajya Day.

All the volunteers celebrated Shivswarajya Day with great enthusiasm through the National Service Scheme at Popatrao Kisanrao Thorat College. All the students sang Povada on the occasion of Shivswarajya Day. The program ended with the national anthem.

**National Service Scheme and Physical Education Department jointly
organised event International Yoga Day Celebration**

Date:-21 June 2022

Yoga Day was celebrated in the college under the National Service Scheme and Physical Education Department on the occasion of 8th International Yoga Day. Yoga Day was celebrated with great enthusiasm under the slogan 'Do Yoga, Stay Healthy'. Yoga training for students through the National Service Scheme to convince students of the importance of yoga in daily life and its health benefits. All the students of the college are participated and celebrated international Yoga Day. Yoga Day was celebrated on Tuesday, June 21, 2022 from 7:00 am to 8:00 am with various yoga Pranayama like Trikonasana and Tadasana.

On the occasion of Yoga Day, the students decided to do regular pranayama and live a healthy life through yoga. They decided to made awareness in society for yoga and it's benifits in today's life. On the occasion of International Yoga Day, the principal Dr. Jagdish Awate guided the students. Yoga instructor Jyoti Pardeshi was invited to teach yoga pranayama to the students.

Industrial Visit to “Ambika Masale”, Bhandgav

Report

Date- 09/06/2022

On 8th June 2022, Department of commerce of Popatrao Kisanrao Thorat College planned a industrial visit with the collaboration of I.Q.A.C. to Ambika Masale company. The founder of that company Mrs. Kamalatai Pardeshi was delivered their speech in our college before, and that time she voluntarily invited us to visit their company with our students. By inspiring her voluntary invitation we planned a visit on 8th June 2022. We preinformed to our students about that industrial visit. Students was also excieted for their first visit to industry. Student enrolled their name for that visit. And that visit is get planned with prior permission of Principal sir Dr.Jagdish Aute and founder of that industry Mrs. Kamalatai Pardeshi with 35 students and 3 teachers with them.

On morning 10.00Am, of 8th Jun our visit is started. The distance was not so much between college and the industry so 10.30 we reached to the industry. Because of safety majors they didn't allowed us to visit industry internally for so long time. So because of that Kamalatai gave information about their industry and all process outside. They told students how she started the company in 2006 with how much employees, before that what was she doing, how she get the idea about this, what barriers she faced, after that what legal processes she followed, what social barriers she faced, what obstacals she got for establishing her company as she is only one business women in Daund taluka.after that she told us about her awards what she got and from whome and where. To which places she visited for

their business person, what struggle she did in various situation for expanding her business. Also she told about how their business was working in Covid-19 pandemic . how much her business progressed from where in this last 15 years. Also told what is her future plans of her business what is she doing for that.

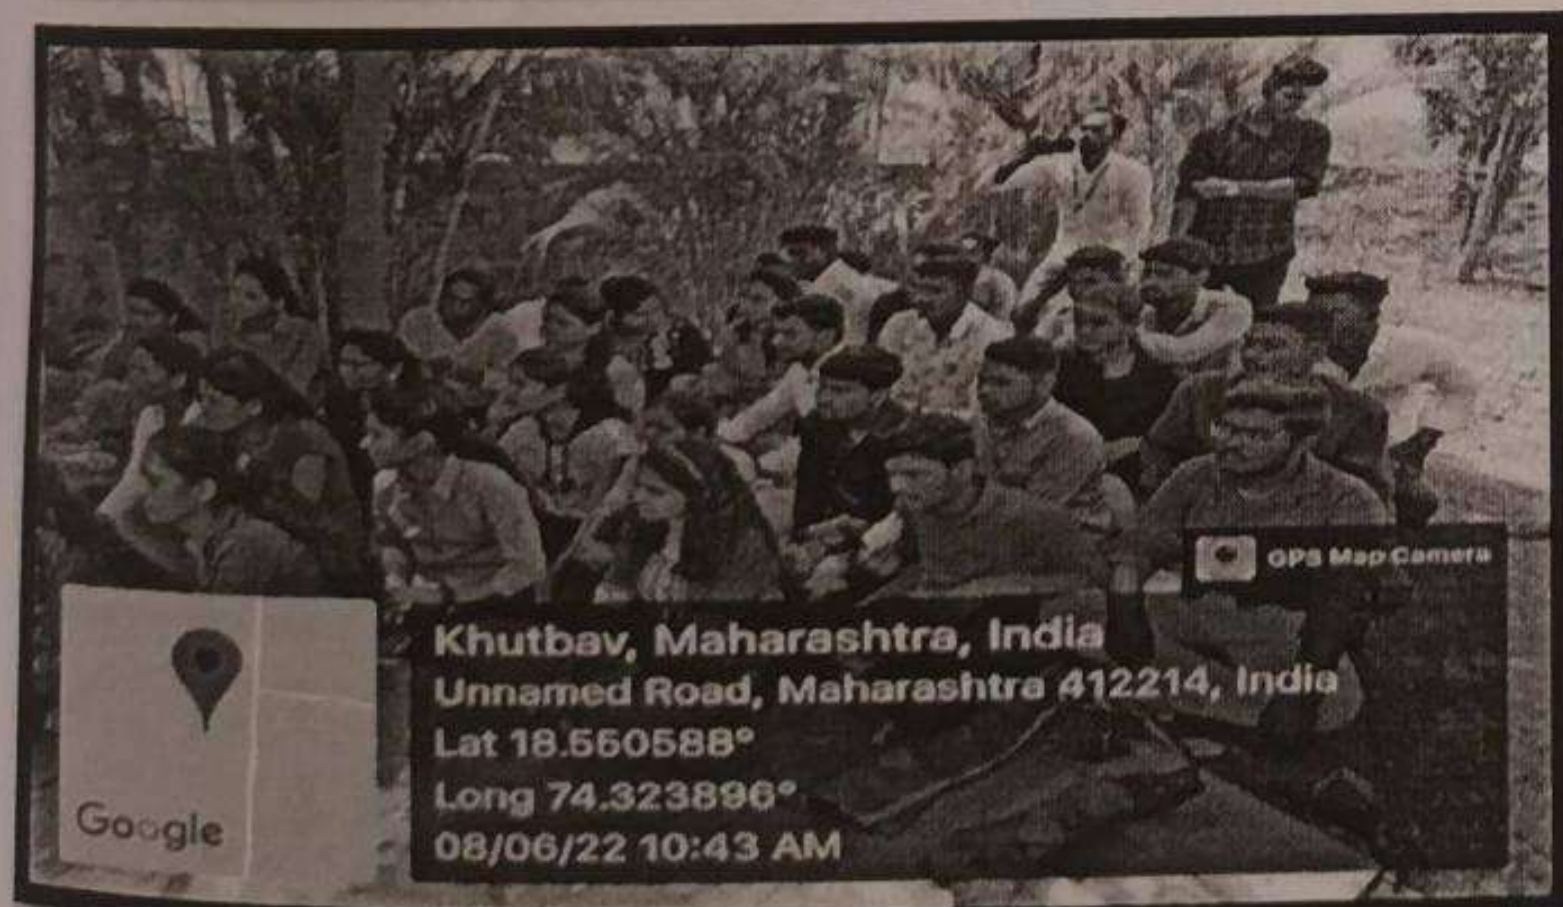

Also she explained the students about how being entrepreneur is good compare to any other field. What knowledge and skills you must have to be that. What you should do and shouldn't. students asked their questions to her and she answered that gracefully and in easy and understandable language. That students and her intraction session was going on for almost an hour. After that she allowed students for 20 minutes to see their all production and packaging work internally. For that she told us to keep our footwares outside and told all girls including ladies teacher to tie their hairs in bun, she told that her all female employees also following that rules regularly because of that was food industry and they have to follow that safety majors. After that we saw all that physically while showing us that all machineries and raw materials, production, packaging etc she explaining us that all step by step. She showed and explained us how that was all managed properly.

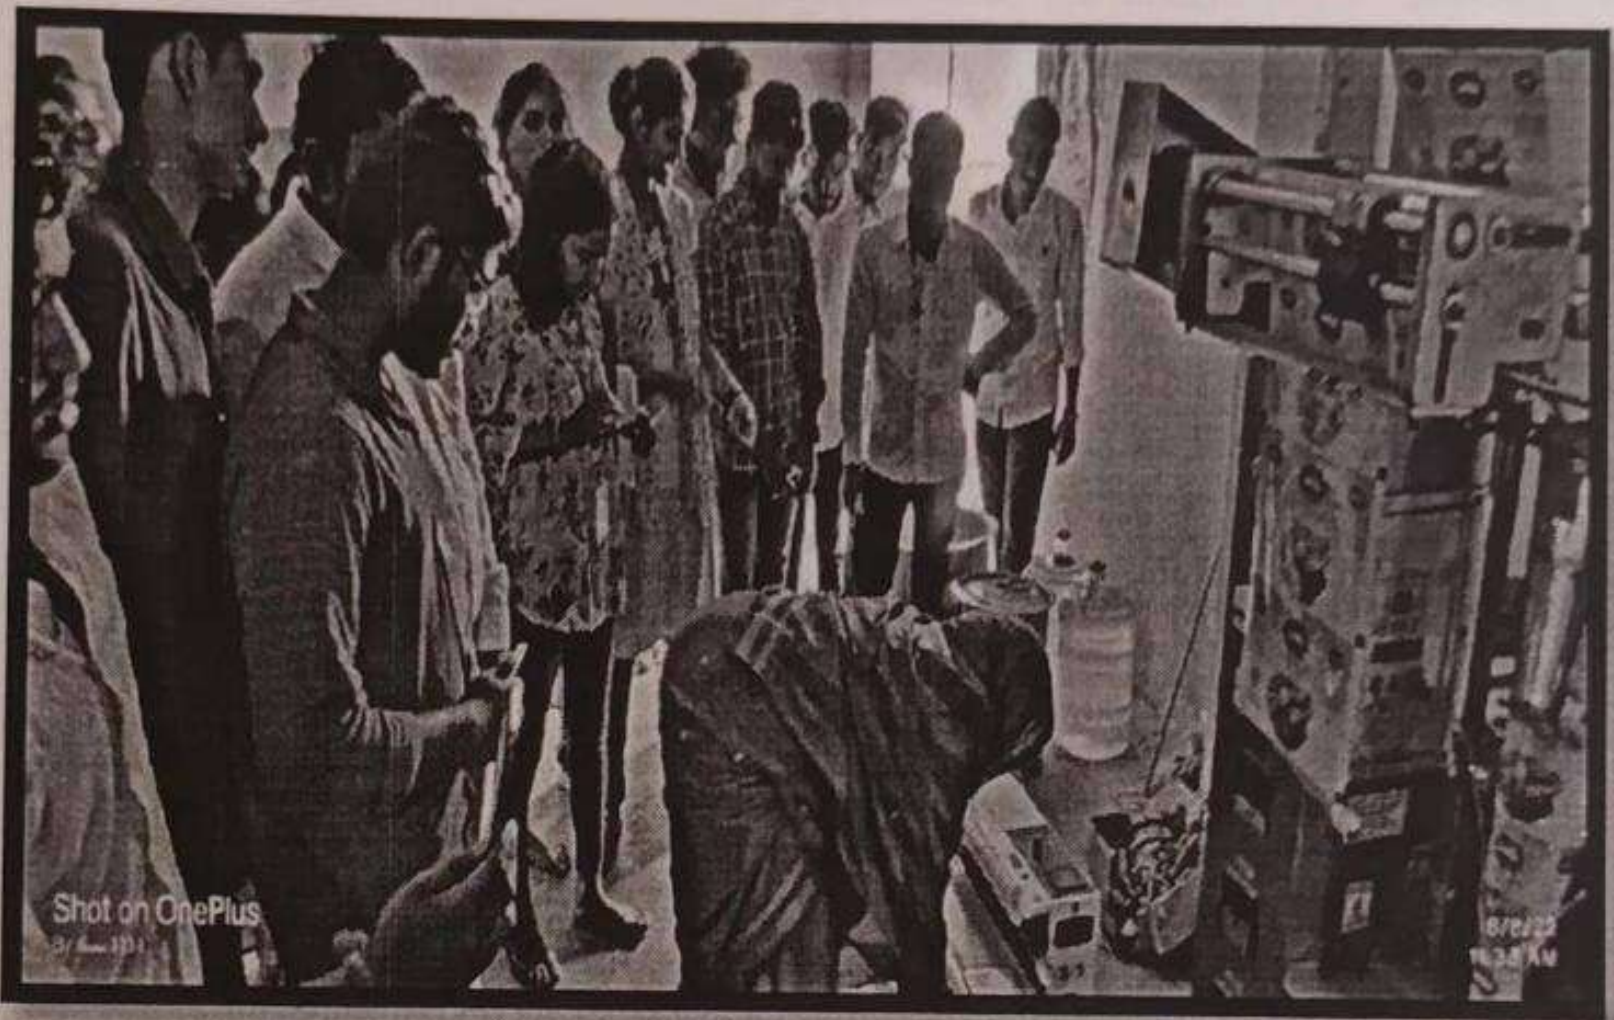

At 1.30 we leaved that place. In return travel students was very satisfied after visiting such industry. They get very inspired by her. Found that visit very beneficial for them and also expressed a wish to visit some more indurries in near future. All programme was arranged by department of commerce with the help of faculty Incharge Asst.Prof. Akshta Thorat, Asst prof. Akshay Gorad, Asst. Prof. Prajkta Waghole and I.Q.A.C Coordinator Assst.Prof. Nikhil Hole.
