## Department of Chemistry

### Action Taken Reports submitted by Mentors on the issues raised by the Mentees

The college has established a structured Mentor-Mentee system with a vision to extend support and guidance to the students for the betterment of their academic and Professional career. It is a very effective system that narrows the gap between the teacher and the taught i.e. Mentor-Mentee. I was allotted 28 Mentees per teacher and 112 students under the department of chemistry. During the meeting, we elaborated the importance of the scheme to the students and told them how this scheme could be instrumental in blending the harmonious relationship between them and the institution at large. During the course of the discussion, some students shared their personal problems and referred to some difficulties that they faced in the college.

#### Following issues were raised by mentee:

Sr.No.	Issue Raised	Issue Resolved
1.	Needs of reference books for reading	Issue is discussed with librarian and required reference books for reading have been made available for students in library hours.
2.	Required old question bank for preparation of examination	Old question papers were provided to students as well as question bank is prepared by various departments and keep in library .
3	Some Chemical and Instrumental calibration issue	Analytical grade chemicals and serviced instruments made available in laboratory for practicals.
